AUTO FLAP CARTON SEALER

## FXJ SERIES

- The machine is designed to seal carton by applying adhesive tape.
- Cost effective, high speed.
- Easy size changeovers.
- For integration into production line or as stand alone machine.
- Conveyor belt tension and tape tension are adjustable to meet the needs of soft/hard cartons.
- The machine folds front/side/rear flaps at high speed.
- Two-side drive belts.
- Designed with upper & bottom tape heads or just upper tape head that are ideal for sealing uniform cartons continuously.
- Model FXJ-Z: easy loading and unloading due to the brackets installed on the two ends of the machine
- Model FXJ-ZX: ideal for integration into production line that requires high degree of automation thanks to safety guard in the front the machine.
- Model FXJ-ZA: integral type, frame made of aluminum profile, safe & reliable operation. It is mainly used for integration into CZF series automatic carton erecting & encasing & sealing packaging line.
- Model FXJ-ZB: adopt three-side belt to drive the machine. The independent adjustment of the carton sealing cartons (such as those used to encase the soft bags) which are full after encasing.
